

Editorial

This edition follows the 1th Colloquium on Skepticism. In it we celebrated the 10th anniversary of the Laboratory of Hum(e)an Studies. Some of the material we offer to the reader was presented in our event, so we need to thank the friends: Rodrigo Brito (UFF), who organized the event with us, Livia Guimarães (UFMG), Marcelo Araújo (UERJ), Raimundo Maia Neto (UFMG), Rogério Soares (PUC-Rio), Gustavo Bernardo (UERJ), Rafael Huguenin (PUC-Rio) and Danilo Marcondes (PUC-Rio), without whom it would have been not possible to live ten years or designing new decades.
